Description:

You can get immediately as a result of the execution of the service.

Description:

A natural person who has the ability to authenticate to an e-service.

The service provides the possibility for the service user to check, free of charge, in the Natural Persons Register data, whether a person with the personal code specified by the user has or does not have a valid declared or registered place of residence at the address specified by the user. When using the service, you must specify the person's code and the exact address for which you want the approval.
