

In divisions use of a face mask is OBLIGATORY!

Published: 03.02.2021.

Covid-19

News

Dear clients,

from today, February 3, when visiting public service places, including the OCMA divisions, face shield must be used only together with medical or non-medical (hygienic or cloth) face masks (amendments to Cabinet Regulation No. 360 of 9 June 2020 "Epidemiological precautions to limit the spread of Covid-19 infection").

To protect yourself and others from getting Covid-19, people will only be allowed to use face shields with a face mask in the future. This is particularly important at a time when a new, more contagious form of the virus is spreading in society.
