Payment of the state fee for the issuance of a passport or identity card (eID) shall be made after the application has been submitted to the Board!

If you pay for the service by transfer in a credit institution or Internet bank, please note that payment processing may take several days. If the payment has not yet arrived at the Treasury, OCMA is not entitled to provide the requested service!

Internet bank printouts, payment orders approved by banks, and other payment documents are not considered proof that the service has been paid for. The only proof of payment for the service is information in the electronic budget payment system "eKase".

When applying for services in an expedited manner (preparation of statements, expedited processing of passports and eIDs, etc.), we recommend paying for the service at the OCMA division with a payment card.

To make sure that the payment has been credited to the Treasury, we recommend using the e-service "Verification of payment made to the budget".
