The Office of Citizenship and Migration Affairs offers the possibility to check data or to obtain data from the Register of Natural Persons by using electronic services:

e-services that are available by authentication with secure electronic signature, authentication means of the Internet banks

["My data in Register of Natural Persons"](#)

On the portal www.latvija.lv, a person can find out electronically what current and historical information about his or her minor child, person under guardianship or trusteeship is included in the Register of Natural Persons (declared or registered residence abroad, passport data, personal identification numbers of parents, children and spouse, etc.) using the OCMA e-service "My data in the Register of Natural Persons".

Within the framework of the e-service, historical (invalid) information, as well as information on adoption and information on the decision and issuance of a certificate granting the status of a politically repressed person or a member of a national resistance movement is not provided from the Register of Natural Persons.

["Persons declared in my property"](#)

["Verification whether a person is included in the Register of Natural Persons and whether there is no information about the person`s death"](#)

["Verification whether a person is declared in specified address"](#)

Using the OCMA e-service "[Verification of whether the person is declared at the indicated address](#)" on the portal www.latvija.lv, the user may electronically verify the information included in the Register of Natural Persons to make sure whether the person with the personal identity number entered by the user has valid registration in the place of residence (declared place of residence or place of residence registered at the initiative of an authority) at the address entered by the user.

The service is available by authentication via e-banking authentication means, identity card (eID) or secure electronic signature smart card.

The authentication via e-banking is available for users of the following Internet banks: [Swedbank](#)", "[SEB](#)", "[Citadele](#)", "[Norvik](#)", "[Meridian Trade Bank](#)" , "[Luminor](#)", "[PrivatBank](#)", "[Rietumu banka](#)", "[ABLV Banka](#)" and "[BlueOrange](#)".

In order to be authenticated with an [identity card \(eID card\)](#) or a [secure electronic signature](#) smart card, you need the appropriate card and smart card reader.

["The residence declaration submission"](#)

["Information about the persons ability to act"](#)

["Personal identity number of compliance with one person"](#)

The service is available to an authenticated user.

Your personal data request will be recorded in the audit trail system.

As a result of the service, you have the opportunity to obtain a confirmation or denial as to whether the two Latvian personal identification numbers indicated by you correspond to the same person.

["Submission for permission or for prohibition to use the persons body, tissues and organs after death"](#)

Using the OCMA e-service "[Verification of whether the person is included in the Register of Natural Persons and whether data on the death of person are present](#)" on the portal www.latvija.lv, the user may electronically verify the information included in the Register of Natural Persons to make sure whether the person with the personal identity number entered by the user is included in the Register of Natural Persons and, if so, whether data on the death of the person are present in the Register of Natural Persons.

The service is available by authentication via e-banking authentication means, identity card (eID) or secure electronic signature smart card.

The authentication via e-banking is available for users of the following Internet banks: banks: [Swedbank](#)", "[SEB](#)", "[Citadele](#)", "[Norvik](#)", "[Meridian Trade Bank](#)", "[Luminor](#)", "[PrivatBank](#)", "[Rietumu banka](#)" and "[BlueOrange](#)".

In order to be authenticated with an [identity card \(eID card\)](#) or a [secure electronic signature](#) smart card, you need the appropriate card and smart card reader.

["Data base search for person name"](#)

["Statistical data providing upon request"](#)

[The current and previous personal identity number](#)

The service is available to an authenticated user.

The service is available after the state fee of 2.00 EUR has been paid.

Having entered a personal identity number, you will be provided with the information from the Register of Natural Persons: the current personal identity number and the date of its assignment. If necessary, you can also obtain information on the previous personal identity numbers, if any. The person's name, surname and other data are not subject to provision under this service.

The service provides the information on the person's current personal identity number or previous personal identity number/-s even if the person, whose personal identity number is being verified, has died or lost the legal status in the Republic of Latvia.

Entering for 5 times an incorrect personal identity number or a personal identity number that does not exist in the Register of Natural Persons will lead to termination of the service.

The service allows obtaining the information only regarding a personal identity number assigned to a natural person in the Republic of Latvia.

Your data request will be recorded in the audit trail system.
