

Procedure for submission of information about the use of body, tissues and organs

Published: 06.10.2020.

The Register of Natural Persons stores information about an individual's approval or prohibition to use his or her body, tissues and organs after decease.

The Office of Citizenship and Migration Affairs shall issue data included in the Register about prohibition or approval to use an individual's body, tissues and organs after decease, a written request to medical, educational or scientific establishments, which regulatory enactments provide the right to perform removal of tissues and organs of an alive or deceased human, as well as to use the same.

In order to include such data in the Register of Natural Persons, an individual must visit a territorial office of the [Office of Citizenship and Migration Affairs](#), must present a personal identification document, must submit [an application of specific form](#) (application form in PDF format) by indicating the individual's given name, surname, identity number and prohibition or approval to use his or her body, tissues and organs after decease. In case, if the signature of the individual on their application has been certified by a notary, the individual may send his or her application by mail or submit by medication of an authorized person.

Application may be requested only remotely:

Personally or by mail [OCMA territorial divisions](#);

Electronically by using e-service "[Application on the prohibition or permission to use the body, tissue and organs of a person after their death](#)". The service is available by authentication with secure electronic signature issued by State joint stock company.

No state duty shall be paid for this service.

Currently for submission of an application, it is only possible with an prior appointment coming with the exchange of identity document.

e-service "[Application on the prohibition or permission to use the body, tissue and organs of a person after their death](#)"
